

## 71st Primetime Emmy Awards 2019

An Emmy Award, or simply Emmy, is an American award that recognizes excellence in the television industry. It is presented at numerous annual events held throughout the calendar year, each honoring one of the various sectors of the television industry. The two ceremonies that receive the most media coverage are the Primetime Emmy Awards and the Daytime Emmy Awards, which recognize outstanding work in American primetime and daytime entertainment programming, respectively. In addition, the International Emmy Awards honor excellence in TV programming produced and initially aired outside the United States.

The Primetime Emmys are presented in recognition of excellence in American primetime television programming. Ceremonies generally are held in mid-September, on the Sunday before the official start of the fall television season, and are currently broadcast in rotation among the ABC, CBS, NBC, and Fox networks. Some award categories presented to behind-the-scenes personnel such as art directors, costume designers, cinematographers, casting directors, and sound designers are awarded at a separate Creative Arts Emmys ceremony held a few days earlier.
